

## JUNIOR MEMBERS COMMITMENTS - 2018

When joining your child as a junior member we ask that the following commitments are read and adhered to.

1. All juniors whose age group train on a Monday evening are requested to attend **at least 50%** of outdoor training nets.

### Why are we doing this?

If children are not attending training they could fall behind in their potential development leaving them vulnerable when playing matches. Also we could have asked more children from the waiting list who want to become members to be coached in the skills of cricket.

If a junior fails to attend the 50% of sessions **apart** from the below **allowances**, the next season they will go on to the waiting list and only get offered a place if one is available after those on the waiting list and members from the previous season have had the chance to take up the offer of a place.

**Allowances** will be made for injury and illness, family or school events, but please inform the club of any absence so it may be recorded on the register by contacting via email [juniortalbots@hotmail.com](mailto:juniortalbots@hotmail.com)

Parents are asked to make sure all juniors register on a Monday night before going to their coaching groups.

2. That **all** junior members make themselves available for selection for junior matches to their managers. This does not mean they will automatically be selected for the team. Selection will be made by the team manager.
3. If selected to play a match and unable to play for any reason please let the manager know as soon as possible to allow time to get another player in place. This will prevent having to play a match shorthanded.
4. Parents of a paid up junior member become honorary members and are able to use the clubs facilities and are encouraged to participate in all the club's activities.
